

CARBON REDUCTION PLAN

MCL is committed to achieving Net Zero emissions by 2050

MCL-G-00016 MCL Carbon Reduction Plan

Supplier name: Marlborough Communications Limited (MCL)

Publication date: April 2022

Commitment to achieving Net Zero

MCL is committed to achieving Net Zero emissions by 2050

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2021	
Additional Details relating to the Baseline Emissions calculations.	
This is MCL's baseline year and as such this is the first set of figures produced. These figures will be used as the current reporting figures as well as baseline for the initial submission.	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	21.38
Scope 2	0.00
Scope 3 (Included Sources)	625.05
Total Emissions	646.43

Current Emissions Reporting

Reporting Year: 2021	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	21.38
Scope 2	0.00
Scope 3 (Included Sources)	625.05
Total Emissions	646.43

Emissions reduction targets

To continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that our carbon emissions per £m turnover, will decrease over the next five years from 35.90 tCO₂e/£M to 20.67 tCO₂e/£M by 2026. This is a reduction of 42.4%.

Progress against these targets can be seen in the graph below:

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been implemented since the 2021 baseline.

1 Perrywood Business Park, Honeycrook Lane, Salfords, Surrey, RH1 5DZ
T: +44 1293 775071 • E: enquiries@marlboroughcomms.com

MCL is currently engaged in the certification process for ISO14001. This process is due for completion later in 2022 prior to commencing the formal certification process. Within the last calendar year, we have made the following changes which we hope will have an impact on our current emissions;

- Changed floor-plate lighting to LED
- Changed all unit electricity to green energy tariffs
- Replaced inefficient boilers with the latest energy efficient alternatives
- Started the Electric Car Scheme
- Upgraded IT hardware for all employees to support working from home where possible
- Encouraged suppliers to consider alternative to air freight where possible (use of sea freight etc)

In the future, we hope to implement further measures such as;

- Continue to reduce waste by exploring more recycling or re-purposing opportunities
- Install additional EV chargers at our Perrywood facility
- Support local green initiative (tree planting etc)

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the supplier:

SA Knight

Shane Knight, Managing Director
